

Haris Anees
Full-Stack Web Developer

+92 319 3699225 | harisanees74@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Karachi, Pakistan

TECHNICAL SKILLS

Core: PHP · Laravel · JavaScript (ES6+) · MySQL · REST APIs · Git/GitHub · OWASP Secure Coding

Frontend: HTML5 · CSS3 · Bootstrap 5 · jQuery · AJAX · Responsive Web Design

Backend & Data: C# · SQL Server · JSON/XML · Authentication & Authorization

Practices: Agile/Scrum · CSRF Protection · Session Management · Input Validation · SEO Optimization

EXPERIENCE

PHP Developer Intern — Internee.pk

Feb 2026 – Apr 2026

- Reduced unauthorized-access risk across 6 internal modules by ~90% by implementing bcrypt password hashing, Email-OTP multi-factor authentication, and role-based access control (RBAC) following OWASP secure-coding standards.
- Cut content-update turnaround time by ~40% by building a secure CMS with input validation, session management, and CSRF protection, enabling non-technical staff to manage 8+ pages independently.
- Unified 3 third-party social media REST APIs (Facebook, Instagram, Twitter) into a single posting workflow, eliminating ~5 hours/week of manual cross-posting.
- Improved e-commerce checkout reliability by developing AJAX-driven, CSRF-protected transaction flows, reducing page-reload load time by ~30%.
- Delivered all features on schedule within 2-week Agile sprints, using Git/GitHub for version control, branching, and peer code review.

PROJECTS

Social Media Management Platform

PHP · MySQL · REST APIs · AJAX

- Unified 3 social APIs (Facebook, Instagram, Twitter) into one scheduling dashboard with role-based access and engagement-analytics export, cutting manual cross-posting by ~5 hours/week
- Built an analytics dashboard with engagement reporting and CSV data export for campaign tracking.

Real-Time Task Management System

PHP · MySQL · JavaScript · AJAX

- Built an AJAX live-update engine with deadline tracking and automated email reminders, reducing missed deadlines rate by ~35% for teams of up to 10.
- Implemented role-based access control and status monitoring to improve team collaboration and accountability.

EDUCATION

Dawood University of Engineering & Technology

Karachi, Pakistan

B.S. Cyber Security — CGPA 3.2/4.0 (2022-2026)

APTECH Learning — HDSE Software Engineering Diploma

2025 – 2027

Concurrent evening program — continued upskilling alongside degree.

Government College for Men — Intermediate (Pre-Engineering), A Grade (74%)

2020 – 2022

CERTIFICATIONS

- Google IT Support Professional Certificate
- Microsoft Cybersecurity Analyst Professional Certificate
- Google Prompting Essentials Specialization
